

Concept paper and roadmap for
"Compliant by Design" strategies published

HITTING A MILESTONE

Regulatory gaps and opportunities
to embed environmental
sustainability in pharmaceutical
regulations defined

INITIAL FOCUS

Streamline regulatory barriers
Promote adoption of innovative sustainable
technologies in pharmaceutical manufacturing

Joint policy brief formulated with
Green Pharma cluster partners

Key pillars for policy focus defined

DELIVERING IMPACT

- ✓ A harmonised environmental sustainability assessment system
- ✓ Enhanced data availability, transparency, and accountability

Making environmental sustainability integral to pharmaceutical regulation
without compromising product quality or patient safety
